Information Systems

Information Systems is the essential factor in the current logistic industry.

We, YSU has been proceeding to improve our systems.

Our effort on this for "participation, application & administration" all the informations efficiently.

Sea-NACCS(Sea-Nippon Automated Cargo Clearance System)

Sea-NACCS is the computer management system for declaration procedures of importation/exportation for ocean cargoes. It's established in October, 1991 and it's revised as new system in October, 2008.

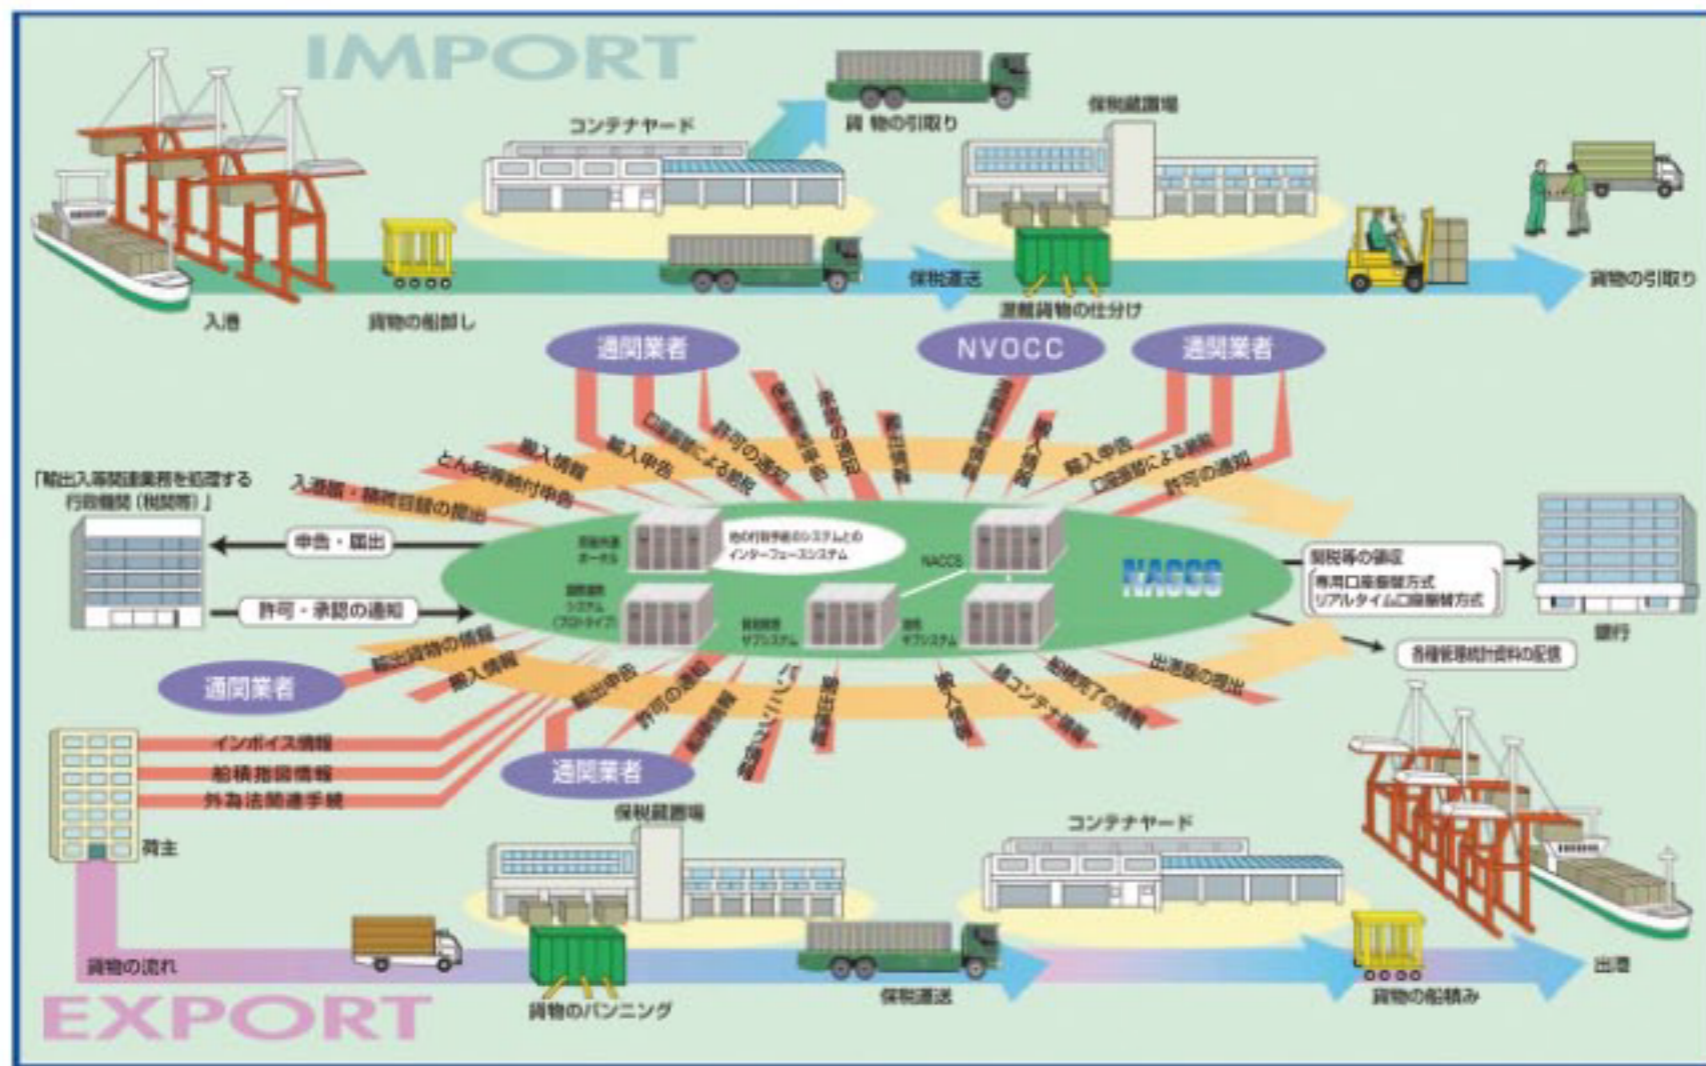

The new system is available for checking vessels' arrival, disembarkation, import declaration & receiving approval

of the declaration. It's also available to check the cargo status which are brought in bonded area, export declaration

and approval, embarkation until vessels' departure.

All the customs procedures and current cargo status are available to check by this on-line system.

We installed this system at the same time when it's started.

(輸出入・港湾関連情報処理センター(株)ホームページより転載)

SUPER BAY (Cargo Data Management System)

We installed "SUPER BAY", Cargo Data Management System which was developed with Obic Co.,Ltd in December, 2004 and are working on improvement and accurately data management of the cargoes. Each one of the shipments are managed putting in the system and sharing the data in head office & branch office. It's revised in December, 2009 and will be improved whenever necessary.

DocuShare (Documents Management System)

We installed "DocuShare" system which was developed by XEROX to manage all the record of shipments without papers. It makes us easier and faster to reply to any inquiries from our customers. Customs brokers must keep all the related documents of the shipments for 3 years following the Seki Tooru Laws. We can reduce cost & space of storage documents by using this system and it's under strictly control of all the records to protect the data.

COMPANY INFO

Message from the President

I would like to express hearty thankfulness to our customers and all related people who supported us over a half century since it's foundation here in Yokohama in 1955.

We have been grown up with improvement of our knowledge, technical innovation and advanced information systems.

Although, the one which never changed since we established is "We carry our customers' important cargoes safely, certainly & quickly". This spirit will never change for the future.

Through the globalize of economy and changing the industrial structure, we recognize ourselves the demands for international transporter should be higher and need to provide various services.

Under this circumstances, we Yokohama Shosen Unyu will keep challenging to provide best services with keeping the sprit from the day of our establishment.

We truly appreciate receiving your continuous support.

President
Shunsuke Saito
